

# IHCC Windows 8 Wireless Printing

## Install the wireless print driver:

1. From the Start Screen type “run” and hit **Enter**.

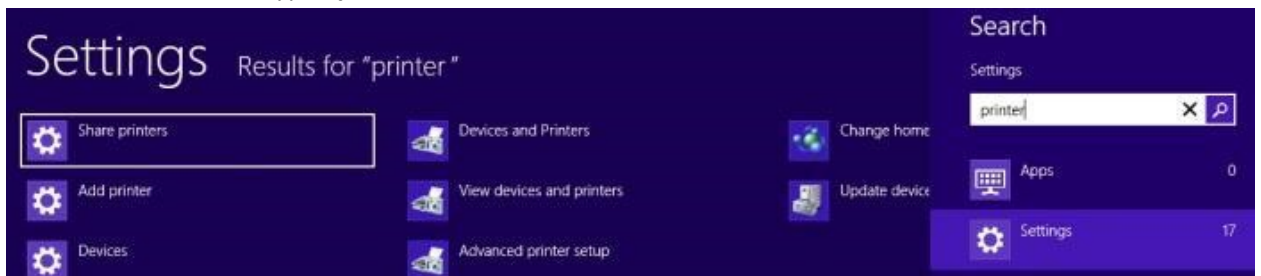

2. In the Run dialog box type [\\134.29.183.183\Softlounge](http://134.29.183.183) then hit the **Enter**.

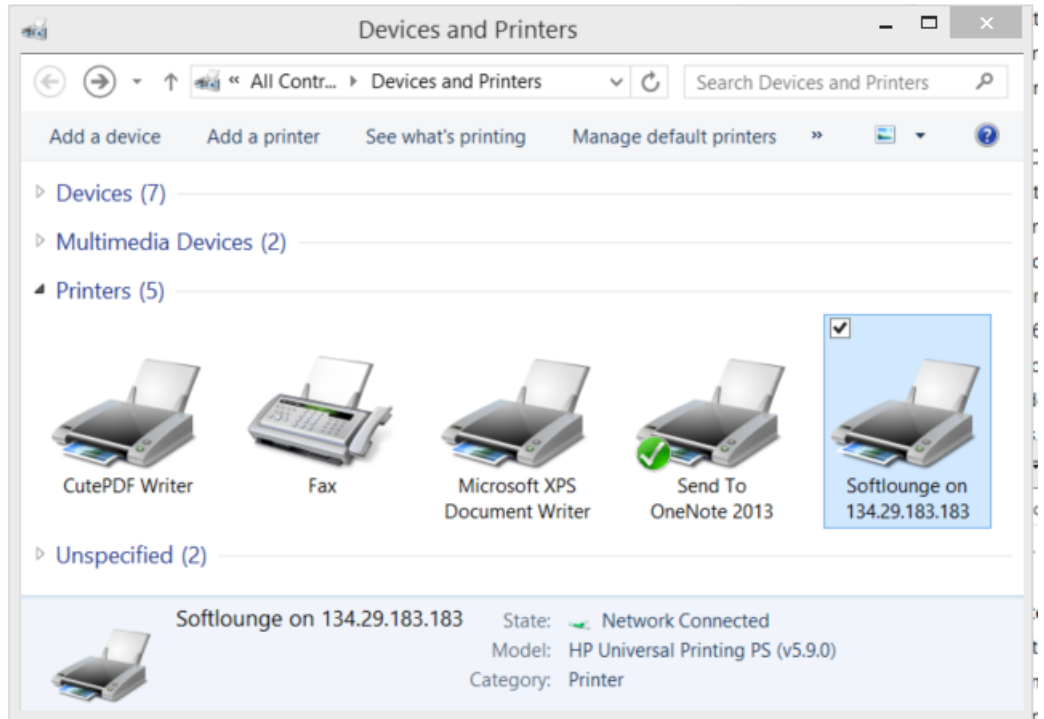

3. A dialogue box will pop up asking for a username and password. Use your **StarID** username and password with 'ihcc\' before your username (so ihcc\username) for the login. The printer driver will now install. Let the progress bar complete.

## Verify the printer is now installed:

1. From the Start Screen type “printer”

2. Click on **Settings** then on **Devices and Printers**. You should now see **Softlounge**.

3. (Optional) To change the default printer setting, right click on any printer and chose "Set as Default Printer"
