

# Zoom Instructions for Students

Students,

As part of being a student within the Minnesota State Colleges and Universities System, you have access to a premium license of the web conferencing tool: Zoom. Due to recent events your instructors will likely be using this more frequently to host class sessions online, but you can also personally use it for meetings with your classmates!

Here's how to get started:

- You can access your MinnState Zoom account from: <https://minnstate.zoom.us/>, just click the "Sign on" button and login with your StarID and password.
- You can download the [Zoom application](#) on your computer or phone and login to your MinnState Zoom account: <https://support.zoom.us/hc/en-us/articles/201800126>, just type in "minnstate" for the **Company Domain** and you'll be prompted to login with your StarID/password.
- [Host a Meeting](#), [invite your friends](#), and check out all the fun things you can do when you [control the meeting as a host](#).

If you are just going to be joining Zoom meetings for class, you don't need to login or use your MinnState Zoom account, but there are a few things you should know to get started:

- [How to Join a Meeting](#)
- [What can I do within a meeting as a participant?](#)

If you get stuck or need some extra help, the [Zoom Help Center](#) has many great resources, live trainings, and even fantastic technical support representatives waiting to help you if need-be.
