

Advanced Placement (AP) Exams

College credit will be granted to students who earn a three or higher in an Advanced Placement examination. College credit shall be granted for a specific college course for each AP examination that covers substantially similar material. Elective credits shall be granted when an AP examination covers material that is deemed to be college-level but is not substantially similar to an existing course. AP credit that overlaps completed coursework for which college credit has already been earned will count as liberal art elective credit.

A college or university shall not limit the total number of credits a student may earn through AP examinations. However, credits earned through AP examinations are not resident credits and may not be used to satisfy resident credit requirements for graduation. A student must provide the college with an official report of AP examination scores in order to receive credit. For an up-to-date list of Advanced Placement credits and their equivalents, see the chart below or visit the college website at inverhills.edu/transferring.
